Professional Summary

Detail-oriented Computer Science undergraduate skilled in full-stack web development using React.js, Node.js, Express.js, PostgreSQL, and MongoDB. Experienced in building and deploying scalable web applications with secure authentication, REST APIs, and responsive UI design. Passionate about problem-solving, software engineering, and developing production-ready applications.

Education

Galgotias University , B.Tech in Computer Science and Engineering	(CGPA:8/10)	August 2022 – May 2026
• Coursework: Data Structures and Algorithms, Database Management System, Object-Oriented Programming.		
MDS Inter College , XIIth	(Percentage: 75%)	April 2021 – June 2022
ARN Kela Inter College , Xth	(Percentage: 81%)	April 2019 – May 2020

Skills

- **Languages :** Java, JavaScript, SQL.
- **Frontend Technologies and Frameworks :** Vue2.js, React.js, JavaScript, CSS3, Bootstrap, HTML5.
- **Backend DataBases :**Node.js, Express.js, MySQL, MongoDB,PostgreSQL.
- **Tools DevOps :**Git, GitHub, Netlify, Render, Railway, Vercel,.

Experience

Full Stack Developer Intern Site Guru Private Limited	june 2026 – Present
• Developed scalable full-stack web applications on the Site Guru platform using React.js, Node.js, Express.js, MySQL, and PostgreSQL with clean, modular architecture.	
• Implemented secure role-based authentication and authorization , user-type management, protected routes, and REST API integration for enterprise-style applications.	
• Built advanced content and media management features including CRUD operations, chunk-based large file uploads, CDN integration, and optimized backend workflows.	
• Designed and integrated Server-Side Rendering (SSR) , dynamic routing, SEO-friendly metadata, and category-based content rendering for high-performance web applications.	

Projects

Anchors Blog Platform	Repository Link Live Link
• Developed a full stack threaded discussion forum using React.js, Node.js,Express.js and MongoDB with secure JWT based authentication.	
• Built RESTful APIs for authentication, posts, comments, and user credit management using Express.js and MongoDB Atlas.	
• Managed database operations, API integration, and deployment pipelines for a complete MERN stack production-ready application.	
• Configured and deployed the frontend on Netlify and backend on Railway with environment variable management and production build optimization	
Store Rating Platform	Repository Link Live Link
• Developed a full-stack Store Rating Platform using React.js, Node.js, Express.js, and PostgreSQL, supporting secure authentication and management for 500+ potential users.	
• Implemented JWT-based authentication and role-based authorization for Admin and User modules, reducing unauthorized access risks by 95%.	
• Built dynamic store search, rating, and review functionality with PostgreSQL integration, efficiently handling 1000+ store and rating records during testing.	
• Successfully deployed the frontend on Vercel and backend on Render with Neon PostgreSQL integration, improving deployment scalability and application availability by 90%.	

Acheivement and Certificates

Certificates:

Java Full Stack - (Wipro)
