Professional Summary

Full Stack Developer (**Vue.js, Node.js, Express.js, MySQL**) with hands-on experience at **Site Guru** building **SSR** web applications with **RBAC, RESTful APIs**, and **chunk-based file uploads with CDN**. Built a multi-organization news platform and a video-sharing platform. Seeking a Full Stack or Vue.js Developer role.

Skills

- **Languages:** JavaScript (ES6+), TypeScript, Java, SQL.
- **Frontend:** React.js, Next.js, Vue.js 2, Vuex, Vuetify, HTML5, CSS3, Bootstrap, Responsive Design.
- **Backend & Databases:** Node.js, Express.js, RESTful APIs, MySQL, MongoDB, PostgreSQL.
- **Core Concepts:** Server-Side Rendering (SSR), Role-Based Access Control (RBAC), Authentication & Authorization, Global State Management, Chunk-Based File Upload, CDN Integration, CRUD Operations, SEO-Friendly Metadata.
- **Tools & Deployment:** Git, GitHub, Netlify, Render, Railway, Vercel.

Experience

Full Stack Developer Intern | Site Guru Private Limited

June 2026 – Present

- Built full-stack web applications on the **Site Guru** platform using **Vue.js 2, Vuex, Node.js, Express.js, MySQL**, and **server-side rendering (SSR)**, with reusable backend modules and frontend components shared across applications.
- Implemented **role-based access control (RBAC)** with user-type management, protected routes, and permission-based UI and API access, and integrated **RESTful APIs** for authentication, CRUD operations, and dashboard data.
- Created content and media management workflows with **CRUD operations** and optimized **SQL queries**, supporting reliable handling of large video and image files.
- Delivered **SEO-friendly, SSR-powered pages** with dynamic routing, metadata management, and category-based content rendering, keeping the codebase modular and maintainable.

Projects

NewsOrbit Digital News Platform

Live

- Developed a multi-organization news platform with a public news site (top, latest, featured, trending, and breaking news; category pages; search) and a permission-based admin panel using **Vue.js, Node.js, MySQL, and SSR**.
- Designed **role-based access control (RBAC)** across **5 user types** (Parent Admin, Parent Employee, Child Admin, Child Employee, and Normal User) using a User Type → Role → Permission → Permission Group model with keys such as news_create and users_edit.
- Modeled a parent-child organization hierarchy in MySQL with per-organization category settings (enabled categories, display order, featured status, and display name) and a **4-stage news publishing workflow** (Draft, Pending, Published, Rejected).
- Reduced duplicate API calls using **Vuex global state** and SSR-based initial data loading; built reusable Vue.js components, dynamic routing, and a database-driven theme system that converts stored settings into CSS variables.

HDTV Bharat Video Sharing Platform

Live

- Built a video-sharing platform (**HDTV Bharat**) using **Vue.js, Vuetify, Node.js, and MySQL**, with category browsing, video details pages, owner controls, and **top 10 related videos** ranked by views and recency.
- Implemented **route-based server-side rendering (SSR)** for **3 page types** (homepage, category, video details) to preload data and reduce unnecessary API requests; kept categories in **Vuex global state** so the sidebar persists across pages.
- Integrated a **chunk-based large-file upload** flow with **CDN delivery** for videos and thumbnails, and designed a **4-stage video lifecycle** (Pending, Approved, Rejected, Deleted) with **soft deletion** to preserve database records.
- Secured owner-level video management (edit title and description, delete) with **backend ownership checks** comparing the video owner to the authenticated user, preventing unauthorized edits through manipulated video IDs.

Education

Galgotias University, B.Tech in Computer Science and Engineering

(CGPA: 8.0/10)

August 2022 – May 2026

- **Coursework:** Data Structures and Algorithms, Database Management System, Object-Oriented Programming.

Certifications

Full Stack Java Developer Certification – Wipro

LinkedIn

CCNA: Introduction to Networks – Galgotias University / Cisco Networking Academy

LinkedIn

Compiler Design – NPTEL, IIT Kharagpur
